**PROUDLY
AUSTRALIAN**

How it works

Assign a unique Trigger Number to a Door or Output on the MyAlarm website. The user saves it as a contact "My Garage Door", and calls it. It rings briefly, hangs up and the Output operates.

Features

- Assign Call Triggers to any site on a compatible MyAlarm plan
- Operate entry access with a simple phone call
- Managed through the MyAlarm website
- Suitable for doors, gates, outputs and more
- Operating times definable for short-stay accommodation
- Works on any mobile or landline phone
- Simple to deploy. Users need not be present at installation
- Almost zero end-user training
- Send Call Trigger users an SMS with instructions, on request.
- Truck access into secured areas through powered gates
- Ideal for voice-activated hands-free operation in vehicles
